

Player Contracts Forum 2017

Introduction

With the booming growth of the sports industry in China, the public is gradually aware of the importance of sports law. For instance, how to understand the particularity of the players' employment contracts? How to establish a dispute resolution mechanism for players? In addition, attention is also given to topics regarding player's image rights, TPO, intermediary, tax and minor protection.

Our aim is to establish a platform on which scholars, lawyers, sports practitioners and sports governing bodies can communicate with each other. We believe the Player Contracts Forum 2017 will further promote sports law in China.

Time 9:00—17:30 Saturday 18th March 2017.
