

**PROFILI PROFESSIONALI E FUNZIONE EDUCATIVA
DELL'ATTIVITÀ SPORTIVA**
Un binomio gravido di conseguenze in campo penale

di *Maurizio Fumo**

ABSTRACT: The paper briefly reviews an appeal court ruling dealing with the legal statute of the sports trainer/coach, who do not apparently fulfil all the criteria to be qualified as fully professional. The judge has finally confirmed that every trainer earning their living from the sports training must be considered a professional worker. Afterwards, the writer goes on to achieve a rigorous, substantial analysis of the important role the sports trainers have in fulfilling the objectives of the sport exercise for the health and education of youth and adults, who practice sport as amateurs. He concludes calling for a sports reform in Italy, which may finally sustain the sports of amateurs through appropriate investments and policies. Since the professional sports have become entertaining activities more than real sports.

Keywords: sports – amateurs – trainer tasks and responsibilities – sports and criminal law.
